

## **My dear friends,**

I bear in my heart a wonderful dream. It is the dream of a Medical Birthing Center where every pregnant woman can receive the best medical services possible. In my dream this Maternity Center will be the best in Romania, due both to the up-to-date technology and to the professionalism and deep compassion that would be inherent to the treatment of every mother to be. I wish every birth in this centre to be a positive and unforgettable experience. And this will be true because the lives of the mother and her baby will be regarded as the most special gifts that come from God. I wish the LIFE given by God in its full splendor to be promoted by every member of the staff. From the cleaning lady to the director, with no exception. In this Birthing Center all the doctors and gynecologists will be pro-life and by no means, under no circumstances, will they practice or encourage abortion.

My dream is not only a story, but foremost a determination of my soul. I will fight all of my life with all I have so this dream can come true.

After the prospective calculation already made by a team of experts, the total cost of the project will rise to at least 3.5 million dollars. For someone like me, who does not have this amount of money now, it seems like a utopia to loose your time thinking and planning something like this. But when I dream of this project I look up to the Lord and see that through His power and blessing this dream will become a reality soon. I believe that in about 3 years we will have the first baby born in this Maternity Center.

My dream does not end here, because in my vision the profit from the medical center will be used in order to develop the pro life work here in Romania. I dream this medical centre will be able to financially sustain 25 pro-life centers, similar to the ones we already have in Cluj, Bucuresti, Brasov & Tirgoviste. When we have 25 centers we will be able to impact 66% of the Romanian population, and then the death caused by abortion will be conquered by life, because we will be promoting life with our entire being. Life not only for the unborn, but also eternal life for the mothers of these children.

Indeed, I know it's a huge dream that scares many, but weren't the Jews scared by Goliath who insulted and threatened them daily? I believe that my Goliath will be defeated by the power of the Lord.

The reason I write you this letter is that I would like you to become a part of my dream. Everyone of you can become a part of this victory if you decide to get involved. I want to take the sling and start the fight, but I need each of you to raise clean hands to God for this battle.

For a beginning I would like to ask you to give me a short reply if you want to pray for this project. I need your daily prayer for at least one month and then we can continue with those who believe that God listens to our prayers.

If you will give me a positive answer I will send you our prayer requests so that you will know more precisely how to pray for us.

Let us not forget the great power of the prayer of the righteous men.

May the Lord give you a good day so that you could target great things through faith.

Love, David Ille
